## MUSTANG ALUMINUM DRIVESHAFT

Coast Driveline & Gear

800/533-8087

[www.coastdriveline.com](http://www.coastdriveline.com)

Developed to fill the needs of hard-core racers, Coast Driveline & Gear's new Ultralight Aluminum Driveshaft is a bolt-in replacement for the heavy and awkward OEM steel driveshaft. The ultralightweight construction of the shaft makes it less than half the weight of the original, so it requires less energy to spin it, which means more horsepower to the wheels—14 hp and 16 lb-ft, according to Coast's tests. The driveshaft also features rebuildable Dana Spicer 1330-series U-joints.

Price: \$595.00 standard; \$695.00 heavy-duty
